

1. Team Name:

Group 10

2. Name of Submitter:

Tyler Dean

3. Reporting Week:

Week of Monday 2/16/2026

4. Summary of work completed in the reporting week

We have got a boilerplate website up and running with a finished database to pair with it. After cloning our front-end GitHub repository to a local machine and running npm run dev, one can access our website at localhost:3000.

5. Summary of work planned for next week

We will start reviewing and preparing for our midterm presentation. We will also continue to develop and further implement our website, focusing on ensuring that an account can be created using the login page.

6. Number of team meetings during reporting week

0

7. Total duration of meetings during reporting week

0

8. List each meeting dates and team members who attended the meetings

We did not hold any meetings this week with our team. Instead, we communicated with each other by using Discord.
